Summary: On August 13, 2003, Erick Jacobson, Chief of Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Julie Fitch, advisor to Cmmr. Peevey, Brian Prusnek, advisor to Cmmr. Kennedy, and David Gamson, advisor to Cmmr. Brown, in three separate meetings in San Francisco. Also present were Donald Davis, Consultant, Donald L. Davis, C.F.A., and Jorge Navarrete, Executive Director, Global Energy and Power, Investment Banking Department, and Michael Davidson, Executive Director, Global Fixed Income Derivatives, UBS Securities LLC. A written presentation entitled 'Managing Interest Rate Risk for Anticipated Financing' (attached to the notice) was used. Jacobson explained that PG&E filed a petition for modification for authority to enter into hedging transactions in order to take advantage of historically

low interest rates. Jacobson described the urgency of this matter. Davidson described the volatility and interest rate risk in the fixed income securities market. Davidson explained the mechanics of how financial instruments such as treasury locks and forward starting swaps are settled. Finally, Jacobson discussed the flexibility of these financial instruments and how the maturity of a forward swap position can be rolled forward.

	I01-09-002	Order instituting investigation on the Commission's own motion to assess and revise the New Regulatory Framework for Pacific Bell and Verizon California Incorporated.

Summary: On August 14, 2003, Robert Finkelstein, attorney for The Utility Reform Network (TURN), met with Tom Long, advisor to Cmmr. Lynch, in San Francisco. Also present was William Nusbaum, attorney for TURN. TURN's representatives addressed its concerns with the alternate. TURN's representatives stated that the alternate's use of statistical regression analysis blurred the many instances of poor quality performance of the New Regulatory Framework (NRF) carriers leading to inappropriate conclusions that the carriers had 'good' or 'exceptional' service quality. TURN's representatives also noted that in the majority of performance-based mechanisms implanted since the original NRF decision have included service quality measures in order to mitigate the likelihood that standards of service would decline due to cost-cutting. TURN argued that the Commission should do no less for NRF. TURN's representatives concluded by acknowledging that the alternate addresses a broader array of measures than does the proposed decision (PD), largely because the PD focused on the areas that need improvement in the future. TURN suggested that if this is a concern, the appropriate remedy would be to revise the PD to include a lengthier discussion of the utilities' performance on all measures.
